ATS118x-CVR-SQ

Installation bagplade til ATS1182N, ATS1183N og ATS1184N læsere, firkantet version (86 x 86 x 10 mm)

ATS118x Installation Backplates

The ATS118x installation plate is injection moulded and has perforated holes for reader mounting. The installation plate is useful for covering socket holes when using a mullion type reader, provides more space for connections and also helps ensure reliable reading when multi-function cards are scanned. This additional space is particularly important when readers are installed upon metal surfaces.

Detaljer

- Available in three shapes: Basic, Slim and Quattro
- Installation plates greatly reduce eddy currents from metal surfaces
- They also cover unsightly old screw holes and reader cable lead in your installation
