SC008CO

Carbon Monoxide Test Spray for CO Fire Detectors

The SC008CO CO (carbon monoxide) test spray is designed to provide the correct level of gas to test a CO fire detector. The test gas cannister is engineered to be used with the TR010 touch-sensitive test gas dispenser. This prevents dissipation of the CO during the test and ensures that the minimum CO gas is used. The CO contained in the SC008CO canister is at a level which poses no threat to the user when used correctly.

Details

- No damage to detector plastics and components
- Faster response time
- Faster clearing time and detector reset time
- Minimum impact to health, safety and environment
- CFC free
- Non flammable
- Suitable for most makes of CO fire detectors
- Designed for TR010 touch sensitive dispenser

SC008CO

Carbon Monoxide Test Spray for CO Fire Detectors

Technical specifications

General

According to the material safety data sheet	
Gas content	5 litres CO
Dispense time	0.5 to 1 sec (approx.)

Compatible products

Category	Reference	Description
Test Equipment	SC010	Aerosol test spray for smoke detectors, HFC free, non-flammable
Test Equipment	TR010	Touch Sensitive Transparent Dispenser Cup on Swing Frame
Test Equipment	TS806-03	Smoke & Cordless Heat Detector Test Set 6.0 m
Test Equipment	TS808	Smoke Test Kit for 4 m
